BBA

Molecular Cell Research
including Hormone and
Neurotransmitter Action
Vol. 1095, 1991

Cumulative Contents

Regular Section

Regular Papers

Binding of cathepsin D to the mannose receptor on rat peritoneal macrophages
P.R. Young, C. Karanutilake and A.P. Zygas (U.S.A.) 1

Lipid metabolism in T47D human breast cancer cells: ^{31}P and ^{13}C-NMR studies of choline and ethanolamine uptake
S.M. Ronen, E. Rushkin and H. Degani (Israel) 5

Effect of carnitine acetyltransferase inhibition on rat hepatocyte metabolism
E.P. Brass, R.D. Gandour and O.W. Griffith (U.S.A.) 17

Leukocyte-mediated inactivation of α_1-proteinase inhibitor is inhibited by amino analogues of α-tocopherol
F.N. Bolkenius (France) 23

HDL_3-retroendocytosis in cultured small intestinal crypt cells: a novel mechanism of cholesterol efflux
G. Rogler, G. Herold and E.F. Stange (F.R.G.) 30

Effects of calcium on hepatocyte iron uptake from transferrin, iron-pyrophosphate and iron-ascorbate
T. Nilsen (Norway) 39

Subsection

Minireview

CD45: a leukocyte-specific member of the protein tyrosine phosphatase family
I.S. Trowbridge, H.L. Ostergaard and P. Johnson (U.S.A.) 46

Regular Papers

Effects of potassium depolarization on intracellular compartmentalization of ATP in cholinergic synaptosomes isolated from *Torpedo* electric organ
C. Solsona, C. Saltó and A. Ymbern (Spain) 57

Retinoic acid receptor in subclone of human salivary gland ádenocarcinoma cell line HSG and effect of retinoic acid on cellular growth
R. Kurokawa, S. Kyakumoto and M. Ota (Japan) 63

Substitution of phosphotyrosine for sulphotyrosine in biologically active peptides. Enzymatic phosphorylation of a progastrin peptide confers immunoreactivity reminiscent of the sulphated derivative
A. Donella-Deana, A. Varro, G.J. Dockray and L.A. Pinna (Italy, U.K.) 75

The effects of heparin cofactor II-derived chemotaxins on neutrophil actin conformation and cyclic AMP levels
M. Hoffman, K.A. Faulkner, M.A. Iannone and F.C. Church (U.S.A.) 78

Chemotactic peptide stimulation of arachidonic acid release in HL60 cells, an interaction between G protein and phospholipase C mediated signal transduction
C.P. Nielson, J. Stutchfield and S. Cockcroft (U.S.A., U.K.) 83

Rapid Report

Modulation of the free sphingosine levels in Epstein Barr virus transformed human B lymphocytes by phorbol dibutyrate
A. Miccheli, R. Ricciolini, A. Lagana, E. Piccolella and F. Conti (Italy) 90

Erratum 93

Regular Section

Regular Papers

Nucleotide and nucleic acid metabolism in rat thymocytes during cell cycle progression
B. Schöbitz, S. Wolf, R.I. Christopherson and K. Brand (Germany, Australia) 95

Glycogen metabolism as detected by in vivo and in vitro ^{13}C-NMR spectroscopy using [1,2-$^{13}C_2$]glucose as substrate
B. Künnecke and J. Seelig (Switzerland) 103

Glucocorticoid-receptor binding sites at the 5′ flanking region of a rat cytochrome *CYP2B2* gene predicted with a novel computer method
S.Y. Plisov, T.I. Merkulova and I.A. Seledtsov (U.S.S.R.) 114

Inhibition of platelet aggregation by a fibrinogenase from *Naja nigricollis* venom is independent of fibrinogen degradation
R.M. Kini and H.J. Evans (U.S.A.) 117

Factors influencing the latency of the peroxisomal enzyme dihydroxyacetone-phosphate acyltransferase (DHAP-AT) in permeabilized human skin fibroblasts
E.J. Wolvetang, J.M. Tager and R.J.A. Wanders (The Netherlands) 122

Subsection

Minireview

Molecular biology of α-adrenergic receptors: implications for receptor classification and for structure–function relationships
J.W. Lomasney, S. Cotecchia, R.J. Lefkowitz and M.G. Caron (U.S.A.) 127

Regular Papers

Prostaglandin E_1 receptor from mouse mastocytoma P-815 cells couples to 60 kDa GTP-binding protein
H. Hashimoto, R. Ogino, H. Saeki, K. Yatsunami and A. Ichikawa (Japan) 140

Basic fibroblast growth factor induces 3T3 fibroblasts to synthesize and secrete a cyclophilin-like protein and β_2-microglobulin
T.R. Davis, L. Tabatabai, K. Bruns, R.T. Hamilton and M. Nilsen-Hamilton (U.S.A.) 145

Tyrosyl phosphorylation and activation of the myelin basic protein kinase p44^{mpk} during sea star oocyte maturation
Jasbinder S. Sanghera, Chrystal K. McNabb, Nicholas Tonks and Steven L. Pelech (Canada) 153

Vasopressin stimulates pyruvate utilization through a Ca^{2+}-dependent mechanism and lactate formation by a protein kinase C-dependent mechanism in isolated rat hepatocytes
K.M. Conricode and R.S. Ochs (U.S.A.) 161

Hepatocyte conditioned medium modulates the response of primary rat hepatocyte cultures to epidermal growth factor
G.G. Skouteris and M.R. Kaser (Greece, U.S.A.) 169

Acute thyroid hormone promotes slow inactivation of sodium current in neonatal cardiac myocytes
D.R. Harris, W.L. Green and W. Craelius (U.S.A.) 175

Rapid Report

Activation of protein kinase C is not required for glyceraldehyde-stimulated insulin secretion from rat islets
S.J. Persaud, P.M. Jones and S.L. Howell (U.K.) 183

Regular Section

Regular Papers

Tumor necrosis factor production by murine resident peritoneal macrophages is enhanced by dietary *n*–3 polyunsaturated fatty acids
I. Hardardottir and J.E. Kinsella (U.S.A.) 187

Interaction of aluminium and gallium with human lymphocytes: the role of transferrin
S.J. McGregor, M.L. Naves, A.K. Birly, N.H. Russell, D. Halls, B.J.R. Junor and J.H. Brock (U.K., Spain) 196

Electron transfer reactions in the NADPH oxidase system of neutrophils – involvement of an NADPH-cytochrome *c* reductase in the oxidase system
H. Fujii and K. Kakinuma (Japan) 201

Internalization and degradation of receptor bound C-reactive protein by U-937 cells: induction of H_2O_2 production and tumoricidal activity
J.M. Tebo and R.F. Mortensen (U.S.A.) 210

L-Carnitine uptake in differentiating human cultured muscle
A. Martinuzzi, L. Vergani, M. Rosa and C. Angelini (Italy) 217

Cytochrome *P*-450-dependent metabolism in alveolar type II epithelial cells: modulation by platelet-activating factor
J. Rabovsky, W.H. Pailes, D.J. Judy and V. Castranova (U.S.A.) 223

The early induction of the actin-sequestering peptide thymosin β_4 in thymocytes depends on the proliferative stimulus
B. Schöbitz, E. Hannappel and K. Brand (Germany) 230

Subsection

Regular Papers

Differential effects of propranolol on responses to receptor-dependent and receptor-indepen-

dent stimuli in human neutrophils
J.C. Gay and J.J. Murray (U.S.A.) 236

Interactions of okadaic acid with insulin action in hepatocytes: role of protein phosphatases in insulin action
L. Agius and M. Peak (U.K.) 243

Oxyntomodulin and related peptides control somatostatin secretion in RIN T3 cells
T. Tani, A. Le Quellec, C. Jarrousse, F. Sladeczek, J. Martinez, A. Estival, L. Pradayrol and D. Bataille (France) 249

Muscarinic receptor-linked elevation of cAMP in SH-SY5Y neuroblastoma cells is mediated by Ca^{2+} and protein kinase C
C.C. Jansson, J. Kukkonen and K.E.O. Åkerman (Finland) 255

Substrate specific activation by glucose 6-phosphate of the dephosphorylation of muscle glycogen synthase
C. Villar-Palasi (U.S.A.) 261

Rat prostatic growth factors: purification and characterization of high and low molecular weight epidermal growth factors from rat dorsolateral prostate
N. Nishi, C. Shimizu, T. Okutani, Y. Kagawa, H. Takasuga, M. Suno and F. Wada (Japan) 268
